

# VANDEWIELE AUTOMATION

REINVENTING TEXTILE PRODUCTION BY COMBINING  
ROBOTICS, AI VISION, AND 24/7 PROCESSES.

HERE, WE'RE REINVENTING TEXTILE PRODUCTION BY COMBINING ROBOTICS, AI VISION, AND 24/7 PROCESSES. WELCOME TO THE TEXTILE INDUSTRY OF TOMORROW. INCREASE YOUR PRODUCTIVITY. REDUCE YOUR COSTS. STANDARDIZE YOUR QUALITY.

## AUTOMATION PLATFORM APPROACH

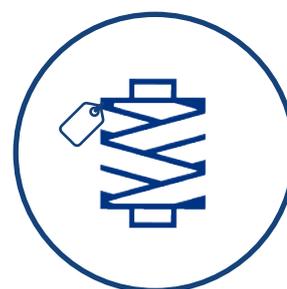

### KNOTTING

*Secures yarn around bobbin for safe bobbin handling*

### YARN REMOVAL

*Clears, outside defective yarn coming from spinning*

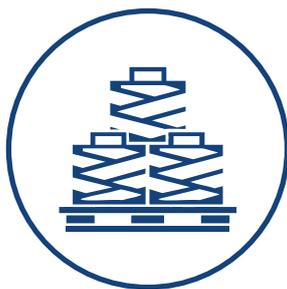

### LABELLING

*Insures tracability*

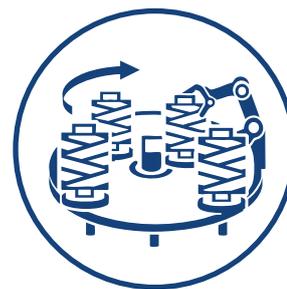

### VISUAL INSPECTION

*Quality control*

### PALETTIZING

*Automate packing and handling station*

### AUTOMATIC CREELING

*Automatic creel loading*

## TAILOR-MADE SOLUTIONS

An automation system only delivers real value when every element works in perfect harmony.

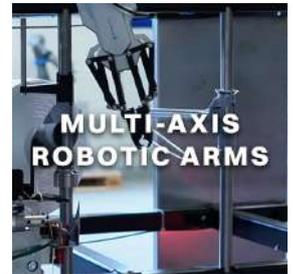

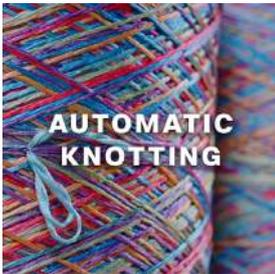

At Vandewiele Automation, our engineering teams design integrated solutions that match each customer's production flow, ensuring consistency, efficiency and scalable performance.

### ALL OF VANDEWIELE AUTOMATION'S INTEGRATED AND AUTOMATED SOLUTIONS GUARANTEE :

- High level of integration
- Product traceability
- Modular and flexible solutions
- Advanced features
